FRONTEND DEVELOPER

ReactJS | NextJS | NodeJS | SQL | Firebase | HTML/CSS | Git

Highly skilled and passionate Frontend Developer with over 5 years of experience, adept at creating robust and visually appealing web applications. Proficient in ReactJS, Next.js, Firebase, HTML/CSS, and other cutting-edge frontend technologies, bringing a keen eye for design and a sharp attention to detail to ensure seamless user experiences. Committed to delivering projects that meet the highest standard of quality, resulting in positive feedback and enhanced user engagement.

AREAS OF EXPERTISE

- JavaScript/ReactJS
- User Interface (UI) Development
- Cross Browser Compatibility
- Response Web Design
- Performance optimization
- Collaborative Team Player
- Frontend Architecture
- Web Accessibility
- Problem-solving & Troubleshooting

TECHNICAL PROFICIENCIES

- JavaScript (ES6+)
- Firebase
- Open AI
- CSS
- Next.js
- Version Control (Git)
- Next JS
- Figma
- Testing & debugging

PROFESSIONAL EXPERIENCE

Intellectual Hours Edu Pvt Ltd

January 2023 - February 2023

Fullstack Developer (Freelance)

Technologies: React.js, Typescript, Firebase (Auth, Firestore, Cloud functions) Next.js, Sanity.io

- Led the development of the Intellectual Hours Edu Pvt Ltd website, a dynamic platform aimed at empowering young entrepreneurs (aged 16-25) to showcase their ideas to esteemed sharks and angel investors.
- Implemented a user-friendly and modern website design to facilitate seamless navigation and engagement for users.
- Developed robust features that allowed aspiring entrepreneurs to effectively pitch their innovative ideas to potential investors, fostering connections and opportunities within the youth entrepreneurship ecosystem.
- Utilized a comprehensive tech stack, including Figma, Next.js, Sanity, and Material UI, to ensure a smooth and efficient development process.
- Collaborated closely with the design team to translate wireframes and mockups into fully functional and visually appealing web pages.

Generate JSON

February 2023 - March 2023

Fullstack Developer (Side project)

Technologies: React, Open AI API, Firebase (Auth, Firestore, Cloud function)

- Designed and developed "Generate JSON," a web application from conceptualization to deployment, as a side project.
- Utilized Open API to enable users to generate custom dummy JSON data quickly and effortlessly.
- Implemented user-friendly features allowing users to create an account, and specify JSON data details such as the name, number of entries, field names, and value types.
- Conducted thorough research to identify the requirements and functionalities needed for the app's successful implementation.
- Designed wireframes and user interfaces (UI) using Figma to create a visually appealing and intuitive application layout.

Global Olympiad Zone

August 2022 - January 2023

Fullstack Developer (Freelance)

Technologies: React.js, Typescript, Firebase (Auth, Firestore, Cloud functions) Next.js, Sanity.io

- Designed and developed a website for Global Olympiad Zone, a platform facilitating online examinations and Olympiads for students.
- Utilized ReactJS, Next.js, and TypeScript to build a robust and scalable web application, ensuring optimal performance.
- Implemented a responsive design approach, enabling a seamless user experience across various devices, including desktop and mobile.
- Developed a custom admin dashboard, granting the client the ability to update and manage content on the platform efficiently.

- Integrated ApexCharts to visualize data in a graphical format, enabling the client to gain valuable insights from the platform's performance.

AIW **2020 - 2022**

Senior Frontend Developer (Full-time)

Technologies: Reacts. js, Typescript, Next JS, Electron JS, Firebase, Figma

- Led and mentored the UI and Frontend team, ensuring smooth collaboration and efficient utilization of technologies such as React.js, Next.js, Electron JS, Redux, Mui V5, Firebase, Figma, and other cutting-edge tools.
- Spearheaded the complete overhaul of multiple enterprise applications, taking charge of the entire process from initial research and wireframing to UI/UX designing and frontend development.
- Played a pivotal role in the development of the company's flagship product, a cloud platform enabling users to create automation flows on a desktop app (Electron JS) and seamlessly sync them with the cloud database.
- Collaborated closely with the designer, maintaining a strong emphasis on aligning frontend implementation with design guidelines to create a cohesive and intuitive user experience.
- Utilized expertise in UI/UX to enhance the overall visual appeal and usability of web applications, optimizing user engagement and satisfaction.
